

Contributors

Rupert Sheldrake (*ars@dircon.co.uk*) is a biologist and a former Research Fellow of the Royal Society and Fellow of Clare College Cambridge. He has conducted independent research for the past 20 years and is author of several books including *Dogs That Know When Their Owners Are Coming Home* (1999) and *The Sense of Being Stared At* (2003).

Anthony Freeman (*anthony@imprint.co.uk*) is a priest in the Church of England, dismissed in 1994 for 'heretical' writing, since when he has been managing editor of the *Journal of Consciousness Studies*. His books include the volume *Consciousness: A Guide to the Debates* (2003) in the ABC-CLIO series 'Controversies in Science'.

Anthony Atkinson (*a.p.atkinson@durham.ac.uk*) completed BSc and MSc degrees in psychology at the University of Canterbury, New Zealand, and received a DPhil in Psychology (specializing in the philosophy of psychology) from the University of Oxford in 1997. He is now a lecturer in psychology at Durham University.

Ian S. Baker (*Ian.Baker@ed.ac.uk*) is a postgraduate researcher in the Koestler Parapsychology Unit, Edinburgh, currently completing the first PhD to research remote staring detection, examining the cortical electrophysiology involved in the processing of the phenomenon. He is also the Associate Editor of the *European Journal of Parapsychology*.

Susan Blackmore (*sblackmore@easynet.co.uk*) is a freelance writer, lecturer and broadcaster, and a Visiting Lecturer at the University of the West of England, Bristol. She has a degree in psychology and physiology from Oxford University and a PhD in parapsychology from the University of Surrey (1980). She no longer works on the paranormal. Her recent publications include the textbook *Consciousness: An Introduction* (2003).

William G. Braud (*william@integral-inquiry.com*) earned his PhD in experimental psychology at the University of Iowa in 1967. He has taught and conducted research at the University of Houston and the Mind Science Foundation (San Antonio, TX), and is currently Professor and Dissertation Director, Global Programs, Institute of Transpersonal Psychology (Palo Alto, CA), where he directs doctoral dissertation research, and continues research, teaching, and writing in areas of exceptional human experiences, consciousness studies, transpersonal studies, spirituality, and expanded research methods.

Jean E. Burns (jeanbur@earthlink.net) is a physicist who is interested in the relationship between consciousness and physical laws. She is a founder Associate Editor of the *Journal of Consciousness Studies* and was a co-editor of its special issue on parapsychology published in 2003.

Roger Carpenter (rhsc1@cam.ac.uk) is Reader in Oculomotor Physiology at the University of Cambridge. His main research interest is eye movements, and especially the neural decision mechanisms that determine where you look. He is the author of *Movements of the Eyes* and of the widely used textbook *Neurophysiology*. As far as consciousness is concerned he is a firm adherent of that deeply unfashionable belief, epiphenomenalism.

Chris Clarke (chris.clarke@scispirit.com) is Visiting Professor of Applied Mathematics at the University of Southampton. His books include *Living in Connection* (2003) the edited volume *Ways of Knowing: Science & Mysticism Today* (2005).

Ralph Ellis (ralphellis@mindspring.com) received his PhD in philosophy at Duquesne University with cross-disciplinary work in psychology, and a postdoctoral MS at Georgia State University. He teaches philosophy at Clark Atlanta University, and is co-editor of the annual book series *Consciousness and Emotion*.

David Fontana (davidfontana@compuserve.com) is Visiting Professor of Transpersonal Psychology at Liverpool John Moores University and author of over 20 books on various aspects of psychology. He is currently writing a major book on death and survival.

Christopher French (c.french@gold.ac.uk) is a Professor of Psychology and Head of the Anomalistic Psychology Research Unit at Goldsmiths, University of London. His research focuses on the psychology of paranormal beliefs and ostensibly paranormal experiences, and on the relationship between cognition and emotion.

Dean Radin (dean@noetic.org) is Senior Scientist at the Institute of Noetic Sciences and several times president of the Parapsychological Association. He is author of *The Conscious Universe* (1997).

Marilyn Schlitz (marilyn@noetic.org) is Director of Research at the Institute of Noetic Sciences and Senior Scientist at the Complementary Medicine Research Institute at the California Pacific Medical Center. She has published numerous articles on psi research and psychophysiology, cross cultural healing, consciousness studies and creativity. She has taught and conducted research at Stanford University, among other institutions.

Stefan Schmidt (sschmidt@ukl.uni-freiburg.de) is a psychologist and received his PhD from the University of Freiburg, Germany in 2002 with a thesis on distant intentionality experiments. He is currently a researcher at the Institute of Environmental Medicine and Hospital Epidemiology at the University Hospital Freiburg and also associated with the European Office of the Samuelli Institute, Corona del Mar, Ca. He is currently conducting several parapsychological experiments (remote staring, telepathy, distant intention) and clinical studies (mindfulness meditation).

Max Velmans (psa01mv@gold.ac.uk) is a Professor of Psychology at Goldsmiths, University of London and is the author or editor of numerous books and papers on consciousness including *Understanding Consciousness* (2000), *Investigating Phenomenal Consciousness* (2000) and *How Could Conscious Experiences Affect Brains?* (2003). He is also science editor of the forthcoming *Blackwell Companion to Consciousness* (2006).
